**TcLand Expression, Leader in gene expression biomarkers in immunology,
strengthens its Board of Directors**

Nomination of Mr Patrick F. Terry as new Board Member

Nantes, April 9th 2009 - [TcLand Expression](#), a world-leading company in the field of gene expression biomarkers in immunology, is honoured to announce the appointment of Mr Patrick F. Terry as new member of its Board of Directors.

This new appointment is a major step forward for TcLand Expression in its strategic position of worldwide pioneer and leader in gene expression biomarker in immunology and active player in personalized medicine.

Patrick Terry is the co-founder and former Director at Genomic Health Inc. (NASDAQ:GHDX) a pioneering personalized medicine company based in California that he and a group of prominent leaders in the fields of genomics, bioinformatics and biotechnology founded in 2000.

Patrick Terry is also a founder of the Personalized Medicine Coalition, Coalition for 21st Century Medicine and co-founder and former President of the International Genetic Alliance, which focuses on empowering problem solving by networking the consumer movement, centers of excellence, and high technology with patient communities around the world.

Patrick Terry has published dozens of peer-reviewed scientific papers, articles, and book chapters in the fields of genetics, personalized medicine, and biomedical research. Some of his activities include leadership positions on numerous trade associations, professional societies, corporate boards, and he sits on a number of US federal advisory bodies.

He has received many honors and awards in the business and scientific communities in the U.S. and internationally. He has dedicated his career to helping people and advancing a patient-centered perspective in research, product development, and translational medicine.

"I am delighted to join the board of Directors of TcLand Expression to actively contribute to the corporate strategy of the company which is positioned to have significant measurable impact on patient needs in the field of personalized medicine.", stated Mr. Terry.

"Having co-founded one of the most successful molecular diagnostic companies in the U.S., Mr Terry is the ideal individual to join the Board of Directors of TcLand Expression and advise on our corporate development" said Alain Huriez, MD Chairman & CEO. "Mr. Terry is a pioneer in the field of personalized medicine. His experience growing Genomic Health from a start up to a profitable company with \$110 million in revenues will be invaluable in our commercialization strategy for the forthcoming years".

About TcLand Expression

TcLand Expression SA is a leader in the development of gene expression biomarkers in transplantation and autoimmune disorders, and also provides cutting-edge immunomonitoring services.
